> FundedNext's Stellar 2-Step is a two-phase CFD evaluation with 8% and 5% profit targets, a 5% daily loss limit, and a 10% maximum loss limit. The fee is refunded with the first reward, but the advertised 95% reward share is a maximum that depends on the programme or optional add-ons rather than a universal starting split.

The broad platform list is a strength, but traders should confirm the platform offered for their selected challenge.
