# FundingPips review 2026

Flexible 2-Step reward cycles with MT5, cTrader, and Match-Trader

**Verdict: use with caution.** Compiled by TraderJury Editorial.

> FundingPips 2-Step Standard uses 8% and 5% targets, a static 5% daily loss cap, a 10% overall loss cap, and no evaluation time limit. Its MT5, cTrader, and Match-Trader coverage and selectable reward cycles are strong, but the 35% consistency condition for on-demand rewards, temporary weekend-holding restriction on Master accounts, and tight conduct rules make the details more complex than the headline offer suggests.

## Score breakdown

### Trust · 3.1 / 5

FundingPips publishes current programme and conduct documentation and clearly labels its accounts as simulated; the service should not be confused with a regulated retail brokerage account.

### Cost · 3.6 / 5

The reviewed 50K 2-Step Standard reference price is $289, with cheaper and larger account sizes available.

### Payout speed · 3.8 / 5

The firm advertises selectable cycles including on-demand, while normal reward processing is stated as one to three working days plus transfer time.

### Drawdown rules · 3.4 / 5

The 2-Step Standard rules set a 5% daily loss limit against the higher opening balance or equity and a static 10% maximum overall loss.

### Scaling plan · 3.7 / 5

The broader FundingPips progression can lead to Prime capital up to $2 million, but that is a progression path rather than an automatic increase on the base Master account.

### Trading platform · 4.2 / 5

The reviewed programme supports MT5, cTrader, and Match-Trader, with meaningful desktop, web, and mobile access.

### Customer support · 3.7 / 5

FundingPips maintains a current help centre and dashboard support routes; this review did not independently time a ticket response.

### Account opening · 3.6 / 5

The two evaluation phases require at least three trading days each and have no overall deadline, subject to inactivity rules.

### Restrictions · 2.7 / 5

On-demand consistency, news windows, temporary weekend restrictions, EA proof, copy-trading ownership, and VPN/VPS rules add operational complexity.

# Frequently asked questions

### What are the 2-Step Standard targets?

−

The reviewed programme uses an 8% Phase 1 target and 5% Phase 2 target.

### What are the loss limits?

−

The daily limit is 5% and the static maximum overall loss is 10%.

### Is there an evaluation deadline?

−

There is no overall time limit, but 30 days of inactivity can breach the account.

### Which platforms are supported?

−

The current official toolkit lists MetaTrader 5, cTrader, and Match-Trader.

### Is the profit share always 100%?

−

No. The share depends on the selected reward cycle: the reviewed documentation lists 60%, 80%, 90%, or 100% with different conditions.
