> FXIFY 2-Phase Pro pairs a $599 regular 100K fee with 4% then 8% targets, a static 8% maximum loss, 4% daily loss limit, and withdrawals every 10 days at an 80% split. The fixed drawdown and low first target are attractive, but three +0.5% profitable days per stage, a $4,000 daily profit cap, no copy trading, pre-approved EAs, payout caps, and no scaling eligibility add important constraints.
