MyFundedFutures Rapid 50K costs \$157 with no activation fee, uses a \$3,000 target and \$2,000 EOD evaluation loss limit, and can unlock daily 90/10 payouts 24 hours after the first Sim Funded trade. The trade-off is a much tighter intraday-trailing funded drawdown, a \$2,100 buffer, Tier 1 news restrictions, and fair-play rules that require careful operational discipline.
